

AlumUnity

Bridging the gap between students and alumni through seamless, meaningful connection.

BUILT WITH NEXT.JS · TYPESCRIPT · FIREBASE

Strengthening Academic Communities

AlumUnity is a dedicated ecosystem designed to foster meaningful professional relationships. It transforms passive alumni lists into an **active, engaged network** — one that continues to grow long after graduation.

Reduce Friction

A polished, intuitive interface that encourages real engagement without complexity.

Drive Mentorship

Structured pathways for alumni to guide the next generation of professionals.

Modern Infrastructure

Built on a carefully selected stack that prioritizes scalability, type-safety, and rapid performance at every layer.

Frontend

Next.js, TypeScript, and Tailwind CSS for a responsive, pixel-perfect UI.

Backend & Database

Cloud Firestore with robust relational mapping for structured, type-safe data access.

Auth & Services

Firebase powers secure email, password with SSO via Google and GitHub — zero password fatigue.

Core Features

Secure One-Click Access
SSO via Google and GitHub —
authenticated in seconds
with no friction at the door.

Integrated Live
Meetings
Native video infrastructure
for panels and Q&As. No
third-party links, no context
switching.

Events Management
Create, share, and track
RSVPs for community
gatherings — all within the
platform.

Forums & Opportunities

Community Forums

A voting-based Q&A system that surfaces the most helpful advice — community-curated, always relevant.

Career Pipeline

Alumni post internships and full-time roles; students apply directly using their pre-built AlumUnity profile.

Seamless Integration

From sign-up to live session—the entire experience lives within a single tab.

Onboard

Discover

Engage

Designed for the busy schedules of students and alumni alike — powerful without being overwhelming.

The Competitive Edge

Unified Platform

Video, hiring, and community tools embedded in one place — no tool-switching required.

Frictionless Engagement

Thoughtfully designed for the busy schedules of both students and alumni.

Data Driven

Community profiles stay current automatically — always accurate, always actionable.

Impact in Action

Real scenarios where AlumUnity delivers measurable value to students, alumni, and institutions.

The Panel

A local chapter hosts a live stream through an event. Students network with speakers in real-time — no external platform needed.

The Referral

An alumnus posts an open role. Students apply instantly using their pre-built AlumUnity profile.

The Solution

A technical challenge surfaces in the forum. The community votes up the best answers — peer mentorship in action.

Join the Community

Getting started takes minutes. Three steps to becoming part of a network that grows with you.

01

Create Your Account

Sign in securely via GitHub or Google — no new passwords to manage.

02

Build Your Profile

Complete your professional profile to be discoverable by peers and potential employers.

03

Start Exploring

Browse the Events board, post in Forums, and discover opportunities waiting for you.

Building the Future of Networking

AlumUnity is **production-ready** and engineered for excellence — a platform built to scale with every institution that adopts it.
